

Mobile Cabinets

- **Cabinet Construction** - Each cabinet is fabricated with quality workmanship using furniture grade cold rolled steel. All components are die formed, notched, welded and tightly fitted to provide maximum strength and rigidity. Numerous configurations and sizes of mobile cabinets are available in powder coated, wood fronts or stainless steel.
- **Smooth Mobility** - Heavy-duty locking casters make units easy to maneuver in tight lab spaces.
- **Stability** - Anti-tipping counter weights are provided to ensure safe operation.
- **Accessories and Components** - A wide variety of features can be added to cabinets to meet specific application requirements.

Mobile Tables

- **Table Construction** - Several configurations and sizes of mobile tables are available and are manufactured of powder coated or stainless steel. Table legs are manufactured with steel tubing and bolted or welded in place.
- **Adjustable** - Height adjustable in 1" increments without the use of tools make them ideal for sitting or standing activities, and can be readily reconfigured for changing applications or process technologies. Fixed height mobile tables are also available.
- **Flexible** - Mobile tables can be incorporated into any existing work space or located as a self-supporting work area anywhere in your lab. They are perfect for sharing instruments between different work areas or labs.
- **Accessories and Components** - Mobile tables are ideal for using in areas where overhead storage or equipment already exists and where work surface mobility is a critical requirement. Tables can offer support for our full range of Sigma System™ lower suspended cabinets, shelves and drawers.
- **Smooth Mobility** - Heavy-duty locking casters make units easy to maneuver in tight lab spaces. Tables can be designed to your load requirements.

mott
MANUFACTURING

QUALITY BY DESIGN

Mott Manufacturing has been successfully designing and manufacturing its extensive line of quality steel laboratory furniture and fume hoods since the early 1960's. With furniture installed world wide in numerous health care, research, industrial, pharmaceutical, and educational applications, Mott can provide, upon request, an extensive summary of its many installations.

Customer Satisfaction is Mott's First Priority

Delivering industry-leading customer service is more than just words to the Mott Team. We know that satisfied customers drive our success. We therefore provide our customers with the following key values:

Consistent Product Quality

Our ISO 9001 Registered Quality Management System, supported by quality materials and skilled employees, ensures only high quality product is shipped.

Just-in-Time Delivery Capability

Our consistent four to six weeks manufacturing lead time, along with our high on-time and complete shipment performance, provide exceptional reliability to our customers.

Adaptable Product Line

Our extensive Sigma Systems™ modular product line permits our customers to readily configure the most productive solution to meet their specific requirements. Our flexible manufacturing capabilities allow convenient modification of standard components to fit the unique requirements of each laboratory.

Competitive Value

Our several decades of application experience allows us to provide productive furniture solutions to our customers. This experience, along with our high product quality, custom manufacturing capability, consistently strong service levels, and competitive pricing provide high value to our customers.

Extensive Dealer Network

Our dealers are the best. We build strong relationships with our dealers to provide, in partnership, industry-leading service levels. Our dealers' on site leadership and years of experience combined with our design and manufacturing skills deliver the very best in laboratory furniture solutions.

MOBILE SOLUTIONS

The Solution to Change...

The latest generation of laboratories demand flexible workplace environments that can fully support change, while sustaining new technologies and users. Mobile products help create sustainable laboratory environments to accommodate equipment additions, as well as staff and tenant changes.

Mott's overhead service carriers provide all utilities in a contained and adaptable overhead conduit. When used with Sigma Carts™, mobile tables and cabinets, you can easily reorganize benches and equipment.

Each laboratory's requirements are unique. Mott provides solutions to meet your specific application demands; simply contact us with your needs.

Our commitment to quality through our ISO Quality Management system assures the reliable, long life of our laboratory furniture.

Sigma Carts™

Sigma Carts™ are perfect for situations where adaptability is essential. They deliver ideal sturdy solutions to laboratories that require high levels of mobility, adjustability, and adaptability and will become an integral part of the lab for many years to come.

- **Cost-Effective** - A solution for today's ever-changing labs, the Sigma Cart™ allows for decreased installation cost with the opportunity for quicker lab reconfiguration, all while providing superior productivity within the work space.
- **Highly Adaptable** - Can be conveniently integrated into existing work spaces or located as self supporting work stations, making them perfect for sharing instrumentation, tools, or processes.
- **Maximum Adjustability** - Ergonomic work surfaces, cabinets and shelves are height adjustable in 1" increments to easily adapt to new tasks, equipment and users. This adjustability allows for quick and easy adaptability to ADA requirements.
- **Vertical Supports** - Durable double slotted channels provide superior strength and adjustability.
- **Height Adjustable Power Bars** - Easily relocatable along any point of the upright to match the needs of operators and equipment.
- **Coating Finish and Color** - A thermosetting laboratory grade powder coating delivers exceptional chemical and scratch resistance, excellent hardness and adhesion, with a quality luster. All colors are quality controlled with micro processor technology to ensure consistent color.

Overhead Service Carriers

Today's laboratories demand equipment that can quickly and easily adjust to meet changing requirements. Mott's Overhead Service Carriers provide the ultimate service flexibility by allowing for access to services throughout the lab.

- **Accessories** - Houses all services such as electrical, data, telephone, local exhaust systems and lighting as well as all of the usual plumbing services.
- **Maximum Flexibility** - Accommodates changes to staff and processes without major renovations to the lab, while also remaining cost effective by avoiding the reconfiguration of a fixed system where services typically originate from the floor.
- **Adaptable** - Overhead Service Carriers can be suspended or flush mounted from the ceiling and are available in several configurations. Designed to work off a grid supply system that allows the carrier to be easily relocated to a different section of the laboratory.
- **Pre-Wiring and Pre-Plumbing** - Overhead Service Carriers accept all types of laboratory plumbing and fittings. Pre-wiring and pre-plumbing are available at the factory, reducing installation time on-site.
- **Easy Access** - Convenient access to utility lines and fixtures provides an inspection point for connections, shut-offs and service lines.

• **Multi-Functional** - Sigma Carts™ can be configured with a broad range of accessories, cabinets and shelves, and can be customized to suit your changing requirements.

• **Versatile** - As needs change, the Sigma Cart™ system can be equipped with an upper cart assembly to create a full height unit, allowing for the addition of overhead storage and accessories.

• **Adjustable Shelving** - Optimize the workstation functionality with shelves that are height adjustable in 1" increments. Ergonomic slanted shelves are an available option to promote easier viewing of monitors or analytical equipment.

• **Heavy-Duty Loads** - Supplementary height adjustable table legs can be used to increase load bearing capacity of the work surface from 600lbs to 1000 lbs. Conveniently folds away under work top.

• **Effortless Mobility** - Heavy-duty swivel casters provide smooth mobility with total lock braking for a stable work area. Stationary feet with levelers are an available option that allows the user to place the cart in a fixed and secure position to safely perform tasks.

• **Flexible Solutions** - Ideal for use with mobile carts and tables because instruments and equipment can be easily connected to the service supply as needed and simply moved out of the way when finished.

• **Upper Storage** - Wall cabinets or shelves can mount above the service carrier to optimize vertical space and allow for greater organization of valuable work surface space.

• **Quick Disconnect Fixtures** - Enables the quick and easy connection of services, as well as the possibility for mobile carts and tables to have access to a convenient power source.
